This rare opportunity will stay with you forever.

She is growing up and the opportunity to reflect on the joys and challenges of this time in your life and her life, is one not to be missed. This is a special night for the girls as they witness the men in their lives discussing the importance of their role. We think that the girls seeing and being part of a gathering of fathers and mentors with this good intent, helps them to build their profile of a good man.

Dr Kelly Harris...

will facilitate this unique experience. Kelly was a teacher for thirteen years with a particular interest in the welfare and mental health needs of students and their families. Kelly completed her Doctorate of Psychology in 2018 and works in both primary and secondary schools as a psychologist. She appreciates the enormous value that Time & Space programs provide as a counterpoint to her own work.

Fathers and mentors will emerge from the night reassured and impressed by the way our students are able to speak up and share insights about their life.

Be assured that the night is fun too... full of activities and conversations that will make us smile as well.

We know that families come in all shapes and sizes and not all fathers can attend an evening such as this. A mentor such as a grandfather, uncle or family friend is welcome to attend.
