

Time & Space to prepare for Year 12

a program for Year 11s and their parent(s) or mentor(s)

Our Lady of Mercy College has engaged Time & Space to deliver a new and innovative program to our class of 2026 and their parents. The Program devised and facilitated by Time & Space, will provide an invaluable opportunity for parents and students to engage in discussion about a wide variety of issues relating to Year 12 and to plan for the challenging year ahead.

Year 12 is in many ways a family effort. Considerable thought, discussion and planning throughout the Time & Space Program will assist students and their families to experience a more enjoyable, and successful year.

The sessions provide plenty of opportunity for conversation, personal reflection and the sharing of memories. Most importantly, they are practical.

Year 12 need not be a scary and daunting prospect. With guidance and support, students and families can experience a smooth and balanced final year. Time & Space provides each family with an opportunity to discuss how together, you can best achieve this outcome.

We know that families come in all shapes and sizes and not all parents can attend an evening such as this. A mentor such as a grandparent, uncle or aunt or family friend is welcome to attend.

The evening session will be conducted by Dr Kelly Harris. Kelly completed her Doctorate of Psychology in 2018 and works in both primary and secondary schools as a psychologist. She appreciates the enormous value that Time & Space programs provide as a counterpoint to her own work.
